Systems development life cycle
Our clients around the world

We deliver high-quality web solutions to customers all over the world. Using the most modern and most demanded technologies we analyse projects of high complexity - from CRM systems to mobile applications. We use high-level of proficiency, popular technologies and have more than 10 years of experience. This allows us to work with high foreign profile customers and be able to match strict project needs/requirements.
The cooperation went smooth and the team was quite flexible in the process of development.

We are grateful to Stfalcon team for the valuable work and their ability to build a partnership.

Business Development Director, 
Master Host

Project Manager, 
Credit Company

Customers geography
We could arrange such kind of work where the process of development solves much more business problems rather than creates any. This is a very valuable feature when you develop a startup.
Nova Poshta — Dashboard

We significantly improved current Personal Dashboard, flexibility of created solution allowed us to bring user experience to a new level.

Pavel Yeremenko
Head of UX at Nova Poshta

Read the Story
They're really well organized. We’ve used several interfaces for project management over the years and it’s just been a joy to engage with them. Everything’s in one place; interactions are logged and approvals are maintained. Stfalcon cares a great deal about not only the process but also about the end result.

Anya Taggart
COO, Food Teck, LLC/Balabing
