Terraform
puppet
Sentry
Jenkins
Systems development life cycle

1. Requirement analysis
2. System Design
3. Development
4. Testing
5. Deployment
6. Maintenance
Our clients around the world

We deliver high-quality web solutions to customers all over the world. Using the most modern and most demanded technologies we analyse projects of high complexity - from CRM systems to mobile applications. We use high-level of proficiency, popular technologies and have more than 10 years of experience. This allows us to work with high foreign profile customers and be able to match strict project needs/requirements.
The cooperation went smooth and the team was quite flexible in the process of development.

We are grateful to Stfalcon team for the valuable work and their ability to build a partnership.

Customers geography
Before the Russian-Ukrainian war, the Stfalcon mission was:
"We develop software that improves people's lives"

Now the mission is transformed to:
"We develop software that improves and SAVES people's lives"
Air Alert

Stfalcon and Ajax teams with the support of the Ministry of Digital Transformation of Ukraine created an app that informs Ukrainians about missile attacks with silent and do-not-disturb modes on phone. Such projects create for years, and we did it in a few days!

Stepan Tanasiychuk
CEO Stfalcon, author of the idea and head of the Air Alert

We could arrange such kind of work where the process of development solves much more business problems rather than creates any. This is a very valuable feature when you develop a startup.

Aleksey Kolupaev
CTO at MeinFernbus

TaskRunner

We’ve rebuilt the project from scratch. I’m very happy about the collaboration. Work is really well: reasonable prices, good communication, and good quality of the deliveries.

Robin Szekely
Founder at the online platform for ordering services
