- Bitbucket
- Kubernetes
- Terraform
- puppet
- Sentry
- Jenkins
Systems development life cycle

- Requirement analysis
- System Design
- Development
- Testing
- Deployment
- Maintenance
Our clients around the world

We deliver high-quality web solutions to customers all over the world. Using the most modern and most demanded technologies we analyse projects of high complexity - from CRM systems to mobile applications. We use high-level of proficiency, popular technologies and have more than 10 years of experience. This allows us to work with high foreign profile customers and be able to match strict project needs/requirements.
The cooperation went smooth and the team was quite flexible in the process of development.

We are grateful to Stfalcon team for the valuable work and their ability to build a partnership.

**Business Development Director**
Master Host

**Project Manager**
Credit Company

Customers geography
We could arrange such kind of work where the process of development solves much more business problems rather than creates any. This is a very valuable feature when you develop a startup.

Aleksey Kolupaev
CTO at MeinFernbus
